Travel Packing Planner

Designing a wardrobe inside a real constraint

Use the table below to walk through each item before it goes in the bag. The mix-and-match score is the one most people skip, and it is the one that does the most work.

The Constraints

Constraint	The reality
Duration of the trip	
Climate range	
Luggage limit

The Final Check

Question	Yes / No
Does every item earn its space by working with at least two others?	
Have I packed for the trip I'm taking, not the trip I'm imagining?	
Is there one outfit I can wear straight off the plane?	
Did I leave room for anything I might bring home?	

Reminder: *The goal is being prepared, not being perfect.*
